Financial Performance FY 2025

The Bank preserved a solid balance sheet position throughout 2025 and through to the issue of this Annual Report and Audited Financial Statements. Total assets remained stable at €1,368.8 million as at 31 December 2025 (2024: €1,375.7 million).

The largest and main income-producing asset portfolio on 31 December 2025 remained loans and advances to customers, which made-up 75% of total assets. During 2025 the percentage of total loans and advances to customers which were credit-impaired was of 2.44% (2024: 2.39%), and the total credit-impaired exposure amounted to €25.4 million (2024: €24.5 million). Exposure to credit-impaired loans and advances to customers was mitigated with collateral amounting to €18.0 million (2024: €18.4 million), and loss allowances of €12.1 million (2024: €11.8 million).

BNF Bank's liquidity position remained robust throughout 2025 and through to the issue of this Annual Report and Financial Statements, and the Bank continued to operate diversified sources of funding. The Liquidity Coverage Ratio as of 31 December 2025 was 181.7% (2024: 213.3%), and the Net Stable Funding Ratio was 138.1% (2024: 141.4%). The Bank's main source of funding remained retail and commercial deposits from the Maltese market, although the Bank also continued to strengthen its partnership with online deposit platforms to raise Euro and Pounds Sterling funding from German and UK retail depositors, respectively.

The Bank's Capital Adequacy Ratio as at 31 December 2025 was 18.5% (2024: 17.4%) and the Common Equity Tier 1 Ratio was 13.8% (2024: 13.2%), both above overall capital requirements and supervisory pillar two guidance.

The Bank remained profitable notwithstanding a period of significant investment in its technology transformation programme. Profit before tax for 2025 amounted to €2.9 million, compared to €13.3 million in 2024, while net operating income stood at €34.0 million (2024: €37.3 million). The reduction in profitability was primarily driven by a decline in net interest income of 1.8%, reflecting the prevailing downward interest rate environment, together with higher operating expenses associated with ongoing investment in technology and infrastructure.

Proposed Dividend

Subsequent to the end of the reporting period, a dividend of €0.013 per nominal share of €0.7552, for a total amount of €1,309,946, is being proposed by the Board of Directors to be distributed to the shareholders for the twelve months ended 31 December 2025.
