BUSINESS **PROFILE**

Citizens Bank with its headquarters located at 231- 233 Camp Street and South Road, Georgetown, had assets of $151.1 billion at September 30, 2025.

Our two hundred and nine (209) employees serve a customer base of more than ninety-five thousand five hundred (95,500).

We provide retail and commercial banking services through our branch network of six (6) branches.

We also provide 24-hour services through ATM's which are located at each of our six branches as well as at seven (7) off-site locations.

MISSION **STATEMENT**

The mission of Citizens Bank Guyana Inc. is to attain distinguished leadership through a team of professionals delivering innovative, superior service to our customers.

NOTICE OF **ANNUAL GENERAL MEETING**

Notice is hereby given that the Thirty-First Annual General Meeting of Citizens Bank Guyana Inc. will be held at 231 – 233 Camp Street & South Road, Georgetown on Tuesday, January 27, 2026 at 5.00 p.m. for the following purposes:

1. *To receive the Audited Financial Statements for the year ended 30 September 2025 and the Reports of the Directors and the Auditors thereon.*

   To consider and (if thought fit) pass the following Resolution:

   1) "That the Audited Financial Statements for the year ended 30 September 2025 and the Reports of the Directors and Auditors thereon be adopted."

2. *To consider the declaration of a final Dividend of $6.25 as recommended by the Directors in addition to the interim Dividend of $2.25 previously declared by them and (if thought fit) pass the following resolution:*

   2) "That the Interim Dividend of $2.25 already paid be confirmed and that a Final Dividend of $6.25 as recommended by the Directors in respect to the year ended 30 September 2025 be approved and paid to the shareholders on the Company's Register at the close of business on January 27, 2026."

3. *To elect Directors. The Directors retiring are Mr. Clifford B. Reis, Mr. Rakesh K. Puri, Mr. Mohamed S. Hussein, and Mr. Carlton A. João who being eligible offer themselves for election.*

   To consider and (if thought fit) pass the following Resolutions:

   3.1) "That the Directors be elected en-bloc."

   3.2) "That Mr. Clifford B. Reis, Mr. Rakesh K. Puri, Mr. Mohamed S. Hussein, and Mr. Carlton A. João, having retired and being eligible for election be and are hereby elected Directors of the Company."

4. *To fix the remuneration of the Directors.*

   To consider and (if thought fit) pass the following Resolution:

   4) "THAT the remuneration of $2,829,642 per annum be paid to the Chairman; the remuneration of $ $2,199,818 per annum be paid to each Non-Executive Director and that a Travelling Allowance for each Non-Executive Director be fixed at $974,675; and that the additional sum of $600,000 per annum be provided for additional remuneration for each Director serving on Technical Committees."

5. *To re-appoint the incumbent Auditors.*

To consider and (if thought fit) pass the following Resolution:

5) "That Messrs Jack A. Alli, Sons & Company be and are hereby re-appointed Auditors for the period ending with the conclusion of the next Annual General Meeting."

6. *To empower the Directors to fix the remuneration of the auditors.*

To consider and (if thought fit) pass the following Resolution:

6) "That the Directors be and are hereby authorised to fix the remuneration of the Auditors at a figure to be agreed with them."

7. *To consider any other business that may be conducted at an Annual General Meeting.*

BY ORDER OF THE BOARD

Frances S. Parris
Corporate Secretary

CHAIRMAN'S REPORT

A Year of Growth and Green Initiatives

Economic Review

The rules of the global economy remain in flux as newly introduced policy measures continue to unfold, and growth prospects shift accordingly. Against this backdrop, the uncertainty regarding the stability and future trajectory of the global economy remains elevated.

After a resilient start, the global economy is showing signs of a moderate slowdown. Incoming data in the first half of 2025 showed robust activity; this apparent resilience driven by temporary factors including the front-loading of trade and investment, as well as inventory accumulation, rather than underlying structural factors. As these factors dissipated, weaker economic data began to emerge with implications for potential output. Global growth is now projected to moderate from 3.3% in 2024, to 3.2% in 2025.

Growth in advanced economies is projected a 1.6% in 2025 reflecting a deceleration from 1.8% in 2024, due to heightened policy uncertainty, higher trade barriers, and lower growth in both the labour force and employment in United States. In the euro area, elevated uncertainty and the impact of higher tariffs continue to weigh on economic activity.

Growth in emerging markets and developing economies are projected to ease slightly from 4.3% in 2024 to 4.2% in 2025, influenced by escalating trade tensions between China and the United States, and increases in the effective United States tariff rate on imports.

Domestic Economic Development

Guyana's economy continues to perform exceptionally well. During the first six months of 2025, the local economy recorded non-oil GDP growth of 13.8% and real oil GDP growth of 7.5% driven by improved performance in the agriculture, gold, bauxite, manufacturing, construction, and services sectors, respectively. These gains reflect the Government's continued implementation of policies aimed at strengthening the traditional sectors, while the oil and gas subsector maintained its consistently robust performance.

"The economy is now projected to grow by 15.2% in fiscal 2025, maintaining the strong momentum recorded in the first half of the year"

The economy is now projected to grow by 15.2% in fiscal 2025, maintaining the strong momentum recorded in the first half of the year. Growth is expected to support further development in the agriculture, forestry and fishing sectors, alongside continued expansion of the construction, manufacturing, and services sectors. Growth in the oil and gas and related support services sectors is expected to remain strong, albeit at a more moderate pace.

Year on year inflation grew by 2.9%, while inflation at June 2025 was 4.2% primarily reflecting higher food prices. At the end of year inflation is projected at 3.1 % as monetary policy will continue to focus on containing inflationary pressures and maintaining exchange rate stability.

The Guyana dollar remained stable during the review period, with the exchange rate reported by the Bank of Guyana unchanged at US$1.00 = G$208.50, consistent with the rate at September 30, 2024.

Banking Sector Development

The performance of commercial banks and other licensed depository financial institutions during the first six months of fiscal 2025 was satisfactory. The consolidated Capital Adequacy Ratio stood at 19.3%, well above the prudential benchmark of 8.0%, indicating continued resilience across the banking sector.

Asset quality improved, with the stock of non-performing loans declining to 1.7%, compared to 2.1% at June 2024.

Total banking sector loans and advances increase by 16.0% to $510.2 billion at September 30, 2025, while private sector credit expanded by 17.0% or $72.7 billion, to $499.6 billion.

Deposits at the commercial banks grew by 28.0% to $1.1 trillion, while private sector deposits rose by 29.6% to $935.3 billion, accounting for 81.0% of total banking sector deposits.

Liquidity within the banking sector remained high with the consolidated reserve accounts balances exceeding the required reserve requirement by 61.5%, and liquid assets exceeding statutory requirement by 97.6%.

The auction of Treasury Bills continues to be the Bank of Guyana's primary open market instrument to manage the excess liquidity. At September 30, 2025, outstanding Treasury Bills totalled $765.0 billion with commercial banks holding $358.2 billion or 46.8%. The 364-day and 91-day Treasury Bills remain the preferred tenors, with the discount rate unchanged at 1.1%, consistent with the prior year.

The weighted average lending rate declined marginally to 7.9% from 8.1%, while the average savings rate remained unchanged.

Performance of the Bank

I am pleased to report that, for the year ended September 30, 2025, Citizens Bank Guyana Inc continued its path of sustainable growth recording profits after taxation of $2.5 billion representing an improvement of $0.2 billion or 11.0% when compared to the prior year.

Our financial results continued their upward trend during this year, and our improved performance was achieved through the growth in our loan and investments portfolios, enhanced asset quality, and the prudent management of our controllable expenses.

Gross revenue increased by 9%, investments by 27.0%, receivables/loans by 6.0%, deposits by 16.0%, and total assets by 16.0%.

Net Income rose to $7.3 billion compared to $6.7 billion the prior year, an increase of $0.6 billion or 9.0% and Profit Before Taxation was $4.2 billion, an improvement of $0.4 billion or 11.6%.

The annualised return on average assets was 1.8%, while the return on shareholders' equity was 14.0% compared to 1.9% and 14.2% respectively in the prior year.

Asset quality continues to improve, with non-performing loans declining to 1.7% of our total loan portfolio compared to 3.5% at September 30, 2024, and compares favourably with the consolidated banking sector average.

The Bank's shares were last traded on the local stock exchange on January 29, 2024, at $388.00 while current bid price is $501.00 per share indicating investors expect positive momentum in the Bank's performance and growth potential.

Growth Initiatives

Guyana's economy is expected to remain on a robust growth trajectory in 2026, presenting significant opportunities for the Bank. However, competition within the financial sector and persistently high liquidity levels are expected to place downward pressure on interest rates.

Sustained success will require continuous reassessment of our strategies and priorities underpinned by strong corporate governance, robust risk management, and enhanced operating efficiencies, to ensure we meet our existing and potential customers' needs and expectations.

During fiscal 2026, the Bank will commence operations at its new Bartica Branch location reaffirming our commitment to providing customers and employees with a modern enabling banking environment.

We also launched a new e-banking platform with enhanced functionality and an intuitive user interface, forming the foundation for future digital innovations. The deployment of state-of-the-art automatic telling machines (ATMs) has expanded access to banking services at existing and newly established locations, with further rollout planned for 2026.

Our employees remain central to our success. Accordingly, we will continue to implement programs aimed at strengthening our human resources management capabilities, fostering motivation, and supporting professional development. We remain committed to equal opportunity, diversity, and maintaining a skilled and engaged workforce.

The initiatives outlined above will ensure that our Bank meets the expanding financial needs of our valued customers and the country thus making Citizens Bank one of the industry's leading financial services providers.

Looking Forward to 2026

Looking ahead to 2026, the global economic outlook remains subject to heightened uncertainty as policy settings continue to evolve and the effects of earlier shocks work through the global system. Global growth is projected at approximately 3.1%, with advanced economies expected to expand by 1.6% and emerging market and developing economies (EMDEs) by 4.0%.

Growth in the United States is expected to remain steady at 2.1%, on account of a fiscal boost from the passage of the budget, and easing financial conditions. However, the durability of this expansion remains contingent on the sustainability of these supportive factors amid an uncertain global trade environment. Within the euro area, growth is projected to slow to a modest 1.1% in 2026, reflecting continued uncertainty on multiple fronts, including elevated trade barriers and the lingering effects of tighter financial conditions.

Growth in emerging markets and developing economies is projected to moderate to 4.0%, representing a 0.2 percentage point decline from 2025. In emerging and developing Asia, growth is expected to ease to 4.7%, as escalating trade tensions with the United States weigh on external demand and investment sentiment.

The outlook for Guyana remains favourable and the economy is expected to continue to record double digit growth in the medium term. The International Monetary Fund (IMF) projects economic growth by 15.7% in fiscal 2026 driven by robust oil production and strong non-oil GDP growth. Spillovers effects from the oil sector, coupled with infrastructure and productivity gains are expected to support sustained non-oil GDP growth.

Citizens Bank Guyana Inc. remains passionately committed to the financial wellbeing of our stakeholders, and to supporting the development of the Guyanese economy. We are well positioned to play a pivotal role in this transformation and remain confident that our strategic initiatives will enhance value to our stakeholders.

Dividend

In 2024, shareholders received dividends of $7.50 per share. The bank paid an interim dividend of $2.25 per share in May 2025. The Directors now recommend a final dividend of $6.25 per share bringing the total dividend payment to $8.50 per share for a total payout of $505.7 million.

Appreciation

My fellow shareholders permit me to extend my sincere congratulations to all our employees on our achievement this year, and my appreciation for their unwavering commitment. I wish to express my gratitude to my colleagues on the Board for their confidence and invaluable contributions. I also want to thank Mr. Paul Andrew Carto, who retired during the year, for his service, and welcome Mr. Carlton Joao to the Board.

I would also like to place on record our continued gratitude to our regulators for their advice and guidance over the year.

To our customers and shareholders, I wish to express my gratitude for their continuing loyalty, commitment, and dedication to the success of our institution, and will utilize this opportunity to extend sincere wishes for a safe and productive 2026.

MANAGING DIRECTOR'S REPORT

OVERVIEW

I am pleased to report that Citizens Bank Guyana Inc. recorded another strong performance during the financial year ended September 30, 2025. Profit after taxation amounted to $2.5 billion, representing an increase of $236.7 million or 11.0% over the prior year.

Earnings per share increased to $41.7, compared to $37.7 in 2024, while book value per share rose by 12.5% to $315.2 as at September 30, 2025, from $281.2 at September 30, 2024.

During the year, the Bank successfully achieved several key strategic objectives, including growth in earning assets, customer deposits, revenue, and shareholders' equity.

Return on Average Assets

The Bank's return on average assets (ROAA), a key indicator of asset utilisation, was 1.8%, compared to 1.9% in 2024. This marginal decline reflects balance sheet expansion and continued investment in liquid and low-risk assets.

Return on Average Equity

Return on average equity (ROAE), which measures returns generated on shareholders' capital, was 14.0%, compared to 14.2% in the prior year, remaining strong and well above industry benchmarks.

Profit after taxation amounted to $2.5 billion, representing an increase of $236.7 million or 11.0% over the prior year.

Net Interest Income and Other Income

Net interest income increased to $6.1 billion from $5.5 billion in the prior year, an improvement of $0.6 billion or 10.0%. Growth in both the loan and investment portfolios was the primary driver of this increase. Interest income remained the Bank's core revenue source, accounting for 83.9% of total operating income, compared to 83.1% in 2024.

Other income amounted to $1.246 billion, compared to $1.201 billion in the prior year, an increase of $45.8 million. Earnings from foreign currency transactions remained the largest contributor, amounting to $407.1 million, or 32.6% of total other income.

As a result, net operating income increased by $0.6 billion or 8.9% to $7.3 billion, compared to $6.7 billion in 2024.

Non-Interest Expenses

Non-interest expenses, which include personnel costs and other operating expenses, amounted to $2.9 billion, compared to $2.4 billion in the prior year, an increase of $541.1 million. This increase was primarily attributable to higher employee emoluments and staff-related costs, inflationary pressures on goods and services, general administrative expenses, and increased depreciation associated with premises and capital investments.

Net Impairment Expenses

Net impairment of financial assets amounted to $225.2 million, compared to a net charge of $600.8 million in 2024. During the year, the Bank wrote off $627.5 million in non-performing loans in accordance with Supervision Guideline No. 5 (SG5). These loans are fully collateralised, and full recovery is anticipated.

Total expected credit loss (ECL) reserves for loan losses amounted to $0.7 billion, compared to $1.1 billion in 2024. The general banking risk reserve, representing statutory and other loss provisions in excess of IFRS 9 impairment requirements, amounted to $0.6 billion.

The Bank continues to apply IFRS 9's forward-looking expected credit loss methodology, which incorporates probability-weighted macroeconomic assumptions. Further details are disclosed in the relevant notes to the financial statements.

At September 30, 2025, non-accrual loans and advances totalled $1.1 billion, compared to $2.1 billion at September 30, 2024, representing a significant improvement in asset quality. The non-accrual ratio remains consistent with industry norms, and all non-accrual exposures are well collateralised. Further reductions are anticipated in the new financial year.

Investment Securities

Net investments at September 30, 2025 amounted to $45.6 billion, compared to $35.9 billion at the prior year end. Investments in Government of Guyana Treasury Bills continued to dominate the portfolio, totalling $34.9 billion, or 98.5% of total investments.

Investments accounted for 41.7% of earning assets and 30.2% of total assets, compared to 37.1% and 27.5%, respectively, in 2024.

The yield on the investment portfolio was 1.2%, unchanged from the prior year, while investment income represented 10.9% of total interest income in 2025, compared to 11.9% in 2024.

Loans and Advances

Net loans and advances increased by $3.8 billion or 6.3% to $63.9 billion, from $60.1 billion in 2024. Growth was recorded across several key sectors, with lending to real estate, construction and engineering, and manufacturing increasing by 20.4%, 18.0%, and 15.2%, respectively. Overall sectoral exposure remained broadly consistent with the prior year.

The yield on loans and advances was 8.9%, compared to 9.1% in 2024. Income from loans and advances accounted for 89.1% of total interest income, compared to 88.1% in the prior year.

Loans and advances represented 58.3% of earning assets and 42.3% of total assets, compared to 62.9% and 46.6%, respectively, in 2024.

Customers' Deposits

Customers' deposits increased to $127.7 billion at September 30, 2025, from $110.0 billion at September 30, 2024.

Savings deposits grew to $63.5 billion, now representing 49.8% of the deposit base, compared to 43.9% in the prior year. Demand deposits increased to $53.8 billion, accounting for 42.2% of total deposits, while time deposits rose to $10.2 billion, representing 8.0% of deposit liabilities.

Private sector, including household deposits amounted to $110.6 billion, representing 86.6% of total deposits. The effective rate paid on deposits was 0.3%, compared to 0.4% in 2024.

Shareholders' Equity

Shareholders' equity increased to $18.7 billion at September 30, 2025, compared to $16.7 billion at September 30, 2024, reflecting transfer of net profits earned during the 2025 financial year.

The Bank's capital adequacy ratio, calculated in accordance with Basle Committee guidelines as adopted by the Bank of Guyana, improved to 27.1%, significantly exceeding the regulatory minimum of 8.0%. This strong capital position not only reaffirms the Bank's sound capital base and high-quality assets profile but also positions the Bank to support anticipated growth opportunities.

Human Resources

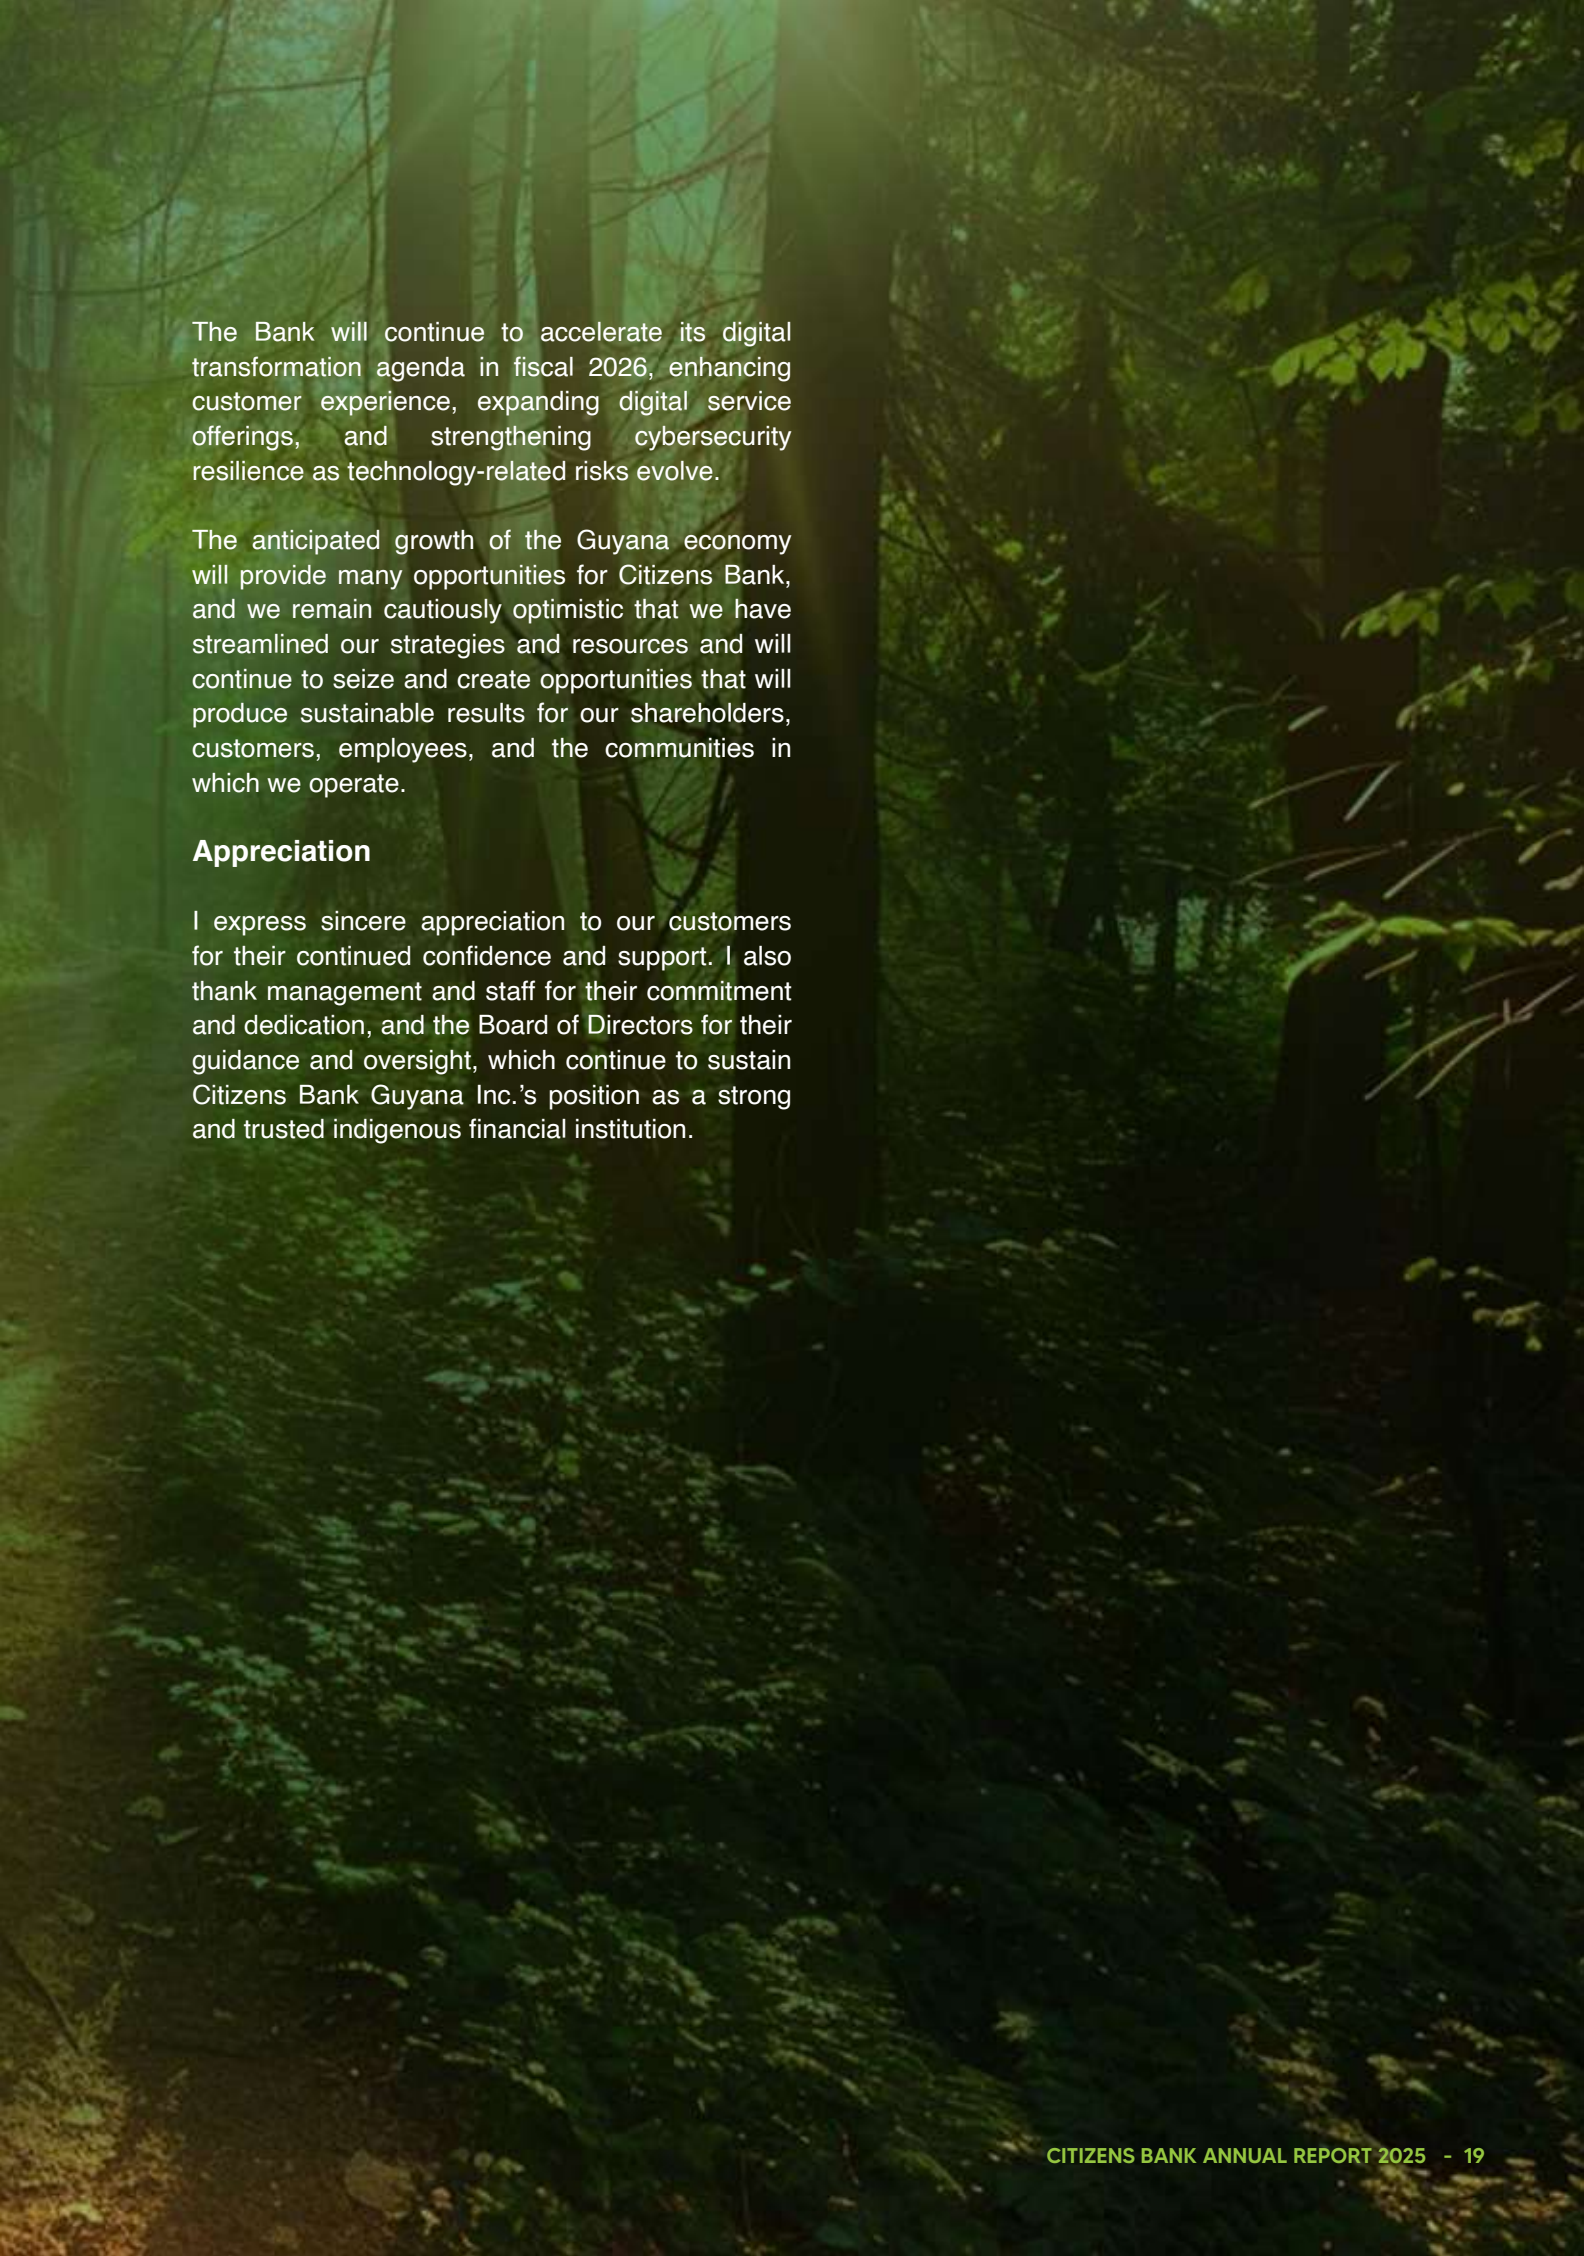

During fiscal 2025, the Bank continued to invest in its human capital to support service excellence and strategic execution. Employees participated in a range of in-house and external training programmes covering customer service, leadership development, information technology, internal audit, credit, and AML/CFT compliance.

Outlook

Citizens Bank intends to continue to exercise robust risk management, including asset quality maintenance, improved customer engagement, and prudent expenditure control, pillars critical to ensuring the growth and stability of the company. Digital transformation will be expedited during fiscal 2026.

Guyana's economy is expected to continue recording strong growth in the medium term. The International Monetary Fund projects economic growth of 15.7% in fiscal 2026, driven by robust oil production and sustained expansion in the non-oil sectors. While the banking sector will remain highly competitive within a low-interest-rate and high-liquidity environment, lending opportunities are expected to materialise across both the oil and gas sector and traditional industries.

The relocation of the Bartica Branch to a new, state-of-the-art facility is expected to be completed during the second quarter of fiscal 2026, significantly enhancing customer service delivery. Additional branch upgrades are planned for during the year.

The Bank will continue to accelerate its digital transformation agenda in fiscal 2026, enhancing customer experience, expanding digital service offerings, and strengthening cybersecurity resilience as technology-related risks evolve.

The anticipated growth of the Guyana economy will provide many opportunities for Citizens Bank, and we remain cautiously optimistic that we have streamlined our strategies and resources and will continue to seize and create opportunities that will produce sustainable results for our shareholders, customers, employees, and the communities in which we operate.

Appreciation

I express sincere appreciation to our customers for their continued confidence and support. I also thank management and staff for their commitment and dedication, and the Board of Directors for their guidance and oversight, which continue to sustain Citizens Bank Guyana Inc.'s position as a strong and trusted indigenous financial institution.

MANAGEMENT'S RESPONSIBILITY **FOR FINANCIAL REPORTING**

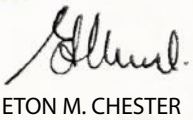

The financial statements, which follow, were prepared by the Management of Citizens Bank Guyana Inc.

While the form of the financial statements and the accounting policies followed are similar to those used by many banks and are prepared in conformity with the requirements of the Financial Institutions Act of 1995, the Companies Act 1991, the Securities Industries Act 1998 and in accordance with IFRS Accounting Standards, some amounts must of necessity be based on the best estimates and judgment of management.

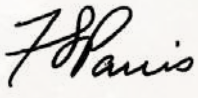

In discharging its responsibility for the integrity and fairness of the financial statements and for the accounting systems from which they are derived, management maintains the necessary system of internal controls designed to provide assurance that transactions are authorised, assets are safeguarded and proper records maintained. These controls include quality standards in hiring and training of employees, written policies and procedure manuals, and accountability for performance within appropriate and well-defined areas of responsibility. The system of internal control is supported by an Internal Audit function. The Bank Supervision Department of the Bank of Guyana conducts examinations of the Bank's operations in accordance with the Financial Institutions Act 1995.

Messrs Jack A. Alli, Sons & Company, independent Auditors appointed to report to the members of the Bank have examined our financial statements in accordance with International Standards on Auditing.

We have disclosed to the Auditors all matters known to us, which may materially affect the outcome of the financial statements presented. The Auditors have full and free access to the Board Audit Committee to discuss their findings as to the integrity of the Bank's financial reporting and the adequacy of the system of internal control.

ETON M. CHESTER
Managing Director

FRANCES SARAH PARRIS
General Manager/Corporate Secretary

STATEMENT OF
CORPORATE GOVERNANCE

The Board of Directors of Citizens Bank Guyana Inc. recognises the importance of good corporate governance and corporate social responsibility in promoting and strengthening the trust of its stakeholders and the public. The Board believes that good corporate governance will enhance shareholder value and it is committed to maintaining the highest level of corporate governance.

In the execution of its duties and responsibilities, the Board is guided by the Laws of Guyana, the by-laws of Citizens Bank Guyana Inc., the recommendations of the Guyana Securities Council, the Guidelines contained in the various Supervision Guidelines issued by the Bank of Guyana (especially Supervision Guideline No. 8 on Corporate Governance) and the Director's Handbook issued by the Bank of Guyana. The Board is also guided by Supervision Guideline 10 on its responsibilities for the Public Disclosure of Information.

The Board of Directors, which governs the Company, meets monthly and comprises eight Non-Executive Directors and the Managing Director. Directors' information is included on page 6 of this Annual Report.

The positions of the Chairman of the Board of Directors and the Managing Director are filled by separate individuals, Mr. Clifford B. Reis (Non-Executive) and Mr. Eton M. Chester (Executive Director), respectively.

The Company's Articles of Association stipulates that each Non-Executive Director must stand for re-election every three (3) years.

The Board of Directors has the following Committees:

- **The Human Resources & Emoluments Committee**, which is responsible for providing approval and oversight of all human resource activities including the formulation of human resource policies, the hiring and retention of the Managing Director and Senior Management and formalising the remuneration policy for all employees. The current members of the Committee are Mr. Clifford B. Reis (Chairman), Mr. Rakesh K. Puri, Ms. Deenawati Panday, Mr. Gavin C. Todd and Mr. Eton M. Chester.

- **The Credit Committee**, which is responsible for developing credit policies and procedures, reviewing credits which exceed the approval authority delegated to Management, and generally overseeing and supporting efficient and effective lending portfolio management. The current members of the Committee are Messrs. Rakesh K. Puri (Chairman), Clifford B. Reis, Ronald G. Burch-Smith, Gavin C. Todd and Eton M. Chester.

- **The Marketing Committee**, which is responsible for providing guidance in developing business and marketing plans and strategies. The Committee is responsible for performing oversight of the implementation of these plans and this includes oversight of branching activities, advertising campaigns and product launching. The current members of the Committee are Mr. Carlton A. João (Chairman), Mr. Clifford B. Reis. Mr. Wilfred A. Lee, Mr. Mohamed S. Hussein, and Mr. Eton M. Chester.

- **The Building Committee,** which is responsible for providing guidance on the maintenance, development, acquisition, and construction of buildings. The Committee is responsible for performing oversight of the management and development of buildings. The current members of the Committee are Mr. Mohamed S. Hussein (Chairman), Ms. Deenawati Panday, Mr. Gavin C. Todd, Mr. Carlton A. João, and Mr. Eton M. Chester.

STATEMENT OF
CORPORATE GOVERNMENT

- **The Audit, Finance, Risk Management and Information Technology Committee,** which is responsible for:
  - o Reviewing and monitoring the development of operational policies and procedures to support the implementation of effective internal controls and risk management practices to ensure the safety and soundness of the operations of the Bank.

  - o Reviewing and monitoring the development and implementation of a roadmap, work programme and operational policies and procedures to ensure that the Bank safely leverages technology to bring about greater operating efficiencies and facilitate the delivery of safe and sound digital services to the Bank's customers. A key component of the Committee's oversight is to ensure that the Bank implements and maintains systems to ensure that data is protected from unauthorized access, breaches, and cyber threats.

  - o Reviewing and developing budgets, business plans and strategies.

  - o Reviewing and monitoring the internal and external audit and examination process and compliance with all statutory and regulatory requirements.

  A key responsibility of the Board of Directors is ensuring that the risks that are significant to the operation of the Bank are identified and appropriately mitigated and managed. This oversight is performed by the Board which reviews various indicators on a monthly basis. Additionally, the Audit, Finance, Risk Management and Information Technology Committee is specifically tasked with responsibility for overseeing risk management and compliance with the various Risk Management Guidelines that are issued by the Central Bank.

  The Company has an Internal Audit Department. This Department monitors the implementation of internal controls and performs ongoing reviews to ensure full compliance with the Company's internal policies and procedures as well as with all statutory requirements. The Audit, Finance, Risk Management and Information Technology Committee performs an annual review of the work programmes of this Department. The report of the Internal Audit Department is reviewed by the Board on a monthly basis.

  The Company has a Management Information Systems Department. This Department is responsible for the implementation, operation and monitoring of all technology-based systems, policies and procedures. The Audit, Finance, Risk Management and Information Technology Committee provides oversight for the technology development road map and performs an annual review of the work programmes of this Department. Matters related to Management Information Systems are reported to the Board on a monthly basis.

  The Bank's approach to the management of credit, liquidity, foreign exchange and interest rate risks are fully discussed in note 28 of the financial statements. In terms of operational risk, which is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events, the Internal Audit Department provides independent assessment and validation through testing of key processes and controls across the Company. Operational risk may occur anywhere in the Company and not solely in the operations functions. Its effects may extend beyond financial losses and a sound internal governance structure enhances the effectiveness of the Company's operational risk management.

  The current members of the Committee are Messrs. Ronald G. Burch-Smith (Chairman), Clifford B. Reis, Rakesh K. Puri, Wilfred A. Lee, Gavin C. Todd and Eton M. Chester.

STATEMENT OF
CORPORATE GOVERNMENT

- **The Legal and Compliance Committee**, which is responsible for:
  - Reviewing and developing operational policies and procedures to support the implementation of effective practices to ensure the safety and soundness of the operations of the Bank in keeping with the requirements of Anti-Money Laundering and the Countering of the Financing of Terrorism (AML/CFT) legislation and international best practices.

  - Reviewing and monitoring the progress of all legal matters.

  - Reviewing and monitoring the internal AML compliance process and compliance with all statutory and regulatory requirements.

  The Company has a Legal and Compliance Department. The duties of this Department include in–house provision of legal services and advice in support of all departments of the Bank, as may be required; serving as liaison with external attorneys on the Bank's behalf; implementation of the Bank's Anti-Money Laundering and Countering of the Financing of Terrorism (AML/CFT) Compliance programme and departmental work programme, and provision of training in areas related to the compliance functions of the Bank. The Legal and Compliance Committee performs an annual review of the work programmes of this Department. This Department reports to the Board on a monthly basis.

  The current members of the Committee are Ms. Deenawati Panday (Chairman), Mr. Ronald G. Burch-Smith, Mr. Wilfred A. Lee, Mr. Carlton A. João, and Mr. Eton M. Chester.

The day-to-day operations of the Bank are managed by the Managing Director with the assistance of a General Manager and a senior management team. This team has responsibility for the management and growth of the credit portfolio, branch operations and all supporting activities required for ensuring the prudent and effective management and security of the Bank's operations. Each member of the team has formal qualifications relevant to their area of responsibility and they each have in excess of ten years of experience in their respective fields. Information on the Management Team is included on 20-21 of this Annual Report.

The performance of management is reviewed on an annual basis in keeping with the expectations of the Board. These expectations are defined primarily by work program objectives and budget targets. The compensation packages for all employees, including management officers, are commensurate with their responsibilities and experience. These packages comprise basic salary and allowances which are reviewed annually by the Board. Incentive payments are based on a combination of the overall performance of the Bank and individually assessed performances.

The Bank conducts all related party relationships and transactions in keeping with the principles of transparency and prudence. The Board of Directors remains committed to making complete disclosure of all related party transactions. Note 26 of the financial statements contains details of the related party disclosure.

The Board of Directors strongly endorses good corporate governance. The Company has sound governance practices since its incorporation and the Board of Directors will continue to maintain these practices, making improvements as necessary.

REPORT OF THE **DIRECTORS**

The Directors submit their Annual Report and the Audited Financial Statements for the year ended 30 September 2025.

PRINCIPAL ACTIVITIES

The Bank provides a comprehensive range of banking services at six locations within Guyana. Our main office is located at Lot 231- 233 Camp Street and South Road, Lacytown, Georgetown and our branches are situated at Parika, Bartica, Mandela Avenue, Linden and New Amsterdam.

Hand-in-Hand Group	4,205,356	7.1	4,205,356	7.1

A substantial shareholder is defined as a person or entity entitled to exercise or control the exercise of five percent (5%) or more of the voting power at any general meeting.

AUDITORS

Messrs. Jack A. Alli, Sons & Company – Chartered Accountants, has informed the Bank of their willingness to continue in office as auditors. A resolution proposing their appointment and authorising the Directors to fix their remuneration will be submitted at the Annual General Meeting.

CONTRIBUTION OF EACH ACTIVITY TO OPERATING PROFIT

Banking services is considered as a single business operation which includes lending, investments, foreign exchange and deposit taking. The contribution or cost of these activities to operating profits is disclosed in notes 16, 17 & 18 of the financial statements.

GEOGRAPHICAL ANALYSIS OF CONSOLIDATED REVENUE AND CONTRIBUTION TO RESULTS

The operations of the Bank are based in Guyana. However, several investments are held overseas from which income of $289.0 million (2024 - $361.9 million) was earned during the year.

INTRA GROUP DEBT

Banks DIH Limited, the parent company of Citizens Bank Guyana Inc has obligations totalling $467.7 million owing to the Bank at 30 September 2025 (2024 - $163.0 million).

MATERIAL CONTRACTS AS AT 30 SEPTEMBER 2025

Citizens Bank Guyana Inc has existing lease agreement to lease from Banks DIH Limited premises situated at 16 First Avenue, Bartica for the purpose of carrying on banking business.

BY ORDER OF THE BOARD

FRANCES S. PARRIS
CORPORATE SECRETARY

REPORT OF THE **INDEPENDENT AUDITORS** TO THE MEMBERS OF CITIZENS BANK GUYANA INC.

Opinion

We have audited the financial statements of Citizens Bank Guyana Inc. (the Company) which comprise the statement of financial position of the Company as at 30 September 2025, and the statement of income, statement of comprehensive income, statement of changes in equity and statement of cash flows for the year then ended and notes to the financial statements, including material accounting policies, as set out on pages 41 to 85.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Company as at 30 September 2025 and of its financial performance and its cash flows for the year then ended in accordance with IFRS Accounting Standards (IFRS) and with the requirements of the Companies Act and the Financial Institutions Act.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) (IESBA Code), and we have fulfilled our other ethical responsibilities in accordance with the IESBA Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

A key audit matter is a matter that, in our professional judgement, was of most significance in our audit of the financial statements of the Company for the year ended 30 September 2025. This matter was addressed in the context of our audit of the financial statements of the Company as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on this matter. This is not a complete list of all risks identified by our audit.

REPORT OF THE **INDEPENDENT AUDITORS** TO THE MEMBERS OF CITIZENS BANK GUYANA INC.

KEY AUDIT MATTER	HOW OUR AUDIT ADDRESSED THE KEY AUDIT MATTER

Allowance for expected credit losses

The Company has gross loans and advances and investment securities carried at amortised cost amounting to $110 billion, or 73 percent of total assets, as at 30 September 2025. Against this gross amount, there is an allowance for expected credit losses (ECL) of $706 million.

The measurement of ECL under the general approach is a complex calculation that requires the Company to measure ECL on a forward-looking basis reflecting a range of economic conditions. This process involves a number of interrelated inputs and assumptions such as the financial asset's probability of default, loss given default and exposure at default, which are modelled based on macroeconomic variables, and discounted to the reporting date.

Significant judgement was required to determine which of those borrowers experienced a significant increase in credit risk (SICR), to estimate forward-looking scenarios and assign probability weights to these scenarios.

For regulatory provisioning, the Company applies prescribed rates of provisioning and relevant classification guidelines.

Given the inherent complexity of the ECL models used and the significant judgment required by management in relation to the forward-looking nature of some key assumptions, the allowance for ECL on financial assets was considered a key audit matter.

Our approach to addressing the matter included the following procedures, amongst others:

- Evaluated the design and tested the operating effectiveness of management's controls over the validation of models and selection of appropriate inputs including the determination of borrowers' classification and the integrity of the data used including the associated controls over relevant information technology (IT) systems.

- Assessed whether the methodology and assumptions, including management's SICR triggers, used in the probability of default, loss given default and exposure at default models across various portfolios are consistent with the requirements of IFRS.

- Tested whether the methodology has been appropriately reflected in the ECL model code by producing an independent version of the model recalculating probability of default, loss given default and exposure at default for a risk-based sample of collectively assessed financial assets and reconciling its outputs to the Company's model.

- Reperformed staging on a sample of financial assets that we determined to be of a higher risk, by independently replicating the staging models.

- Challenged whether the Company's SICR criteria was sufficiently forward-looking for a sample of borrowers through our evaluation of forecasted cash flows, collateral valuations and by comparing data and assumptions to relevant publicly available information and other known variables obtained through our other audit procedures.

REPORT OF THE **INDEPENDENT AUDITORS** TO THE MEMBERS OF CITIZENS BANK GUYANA INC.

KEY AUDIT MATTER	HOW OUR AUDIT ADDRESSED THE KEY AUDIT MATTER
Refer to notes 2.3, 2.4, 2.5, 3, 6, 7, 20 and 28 to the financial statements for disclosures of related accounting policies, judgements, estimates and balances.	• Performed tests over the completeness and accuracy of data used in the ECL models by reconciling and verifying key data fields to source systems and relevant documents. • Reperformed credit assessments for a sample of financial assets classified as performing loans within higher risk sectors to determine whether their stage classification was appropriate.

Other Information

Management is responsible for the other information. The other information comprises the information included in the Annual Report but does not include the financial statements of the Company and our auditors' report thereon. The Annual Report is expected to be made available to us after the date of this auditors' report.

Our opinion on the financial statements of the Company does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Company, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Company, or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

When we read the Annual Report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

REPORT OF THE **INDEPENDENT AUDITORS** TO THE MEMBERS OF CITIZENS BANK GUYANA INC.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements of the Company in accordance with IFRS and the requirements of the Companies Act and the Financial Institutions Act, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing these financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Company's financial reporting process.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

REPORT OF THE **INDEPENDENT AUDITORS** TO THE MEMBERS OF CITIZENS BANK GUYANA INC.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide to those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Determine, from the matters communicated with those charged with governance, those matters that were of most significance in the audit of the financial statements of the Company of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefit of such communication.

The engagement partner on the audit resulting in this independent auditors' report is Javed A. Alli.

STATEMENT OF **CASH FLOWS**

for the year ended 30 September 2025

Thousands of Guyana Dollars	2025	2024
OPERATING ACTIVITIES		
Profit before taxation	4,200,662	3,764,321
Adjustments to reconcile net profit to net cash provided by operating activities:		
Depreciation and amortisation	294,717	186,784
(Gain) / loss on disposal of property and equipment	(626)	16,291
Net movement in impairment of loans and advances	225,215	600,819
Loans and advances	(3,998,174)	(8,724,194)
Reserve requirement with Bank of Guyana	(2,169,516)	(1,834,647)
Fair value losses on investment securities	10,572	18,098
Customers' deposits	17,727,564	15,439,002
Other assets	108,834	(253,715)
Other liabilities	752,373	1,495,860
Taxes paid	(1,686,932)	(1,592,460)
NET CASH INFLOW OPERATING ACTIVITIES	15,464,689	9,116,159
INVESTING ACTIVITIES		
Additions to investment securities	(108,418,068)	(69,061,964)
Maturities of investment securities	98,711,327	57,007,937
Purchase of property and equipment	(963,702)	(669,281)
Purchase of intangible asset	0	(12,884)
Proceeds from sale of property and equipment	700	1,780
NET CASH OUTFLOW - INVESTING ACTIVITIES	(10,669,743)	(12,734,412)
FINANCING ACTIVITIES		
Dividends paid	(461,057)	(380,744)
NET CASH OUTFLOW - FINANCING ACTIVITIES	(461,057)	(380,744)
NET INCREASE / (DECREASE) IN CASH AND CASH EQUIVALENTS	4,333,889	(3,998,998)
CASH AND CASH EQUIVALENTS AS AT BEGINNING OF YEAR	13,581,198	17,580,196
CASH AND CASH EQUIVALENTS AS AT END OF YEAR	17,915,087	13,581,198
CASH AND CASH EQUIVALENTS COMPRISE:		
Cash and non-restricted balance with Bank of Guyana	9,136,055	6,548,502
Amounts due from other banks	8,779,032	7,032,696
	17,915,087	13,581,198

The notes on pages 41 to 85 form an integral part of these financial statements.

NOTES TO THE **FINANCIAL STATEMENTS**

30 September 2025

1. COMPANY IDENTIFICATION AND PRINCIPAL ACTIVITY

Citizens Bank Guyana Inc. (the 'Company') was incorporated in Guyana on 02 November 1993. Its registered office is situated at 231-233 Camp and South Road, Lacytown, Georgetown, Guyana. Banks DIH Limited, a company incorporated in Guyana, owns 51% of the Company's share capital. Its ultimate parent company is Banks DIH Holdings Inc., a company registered in Guyana.

The Company is licensed to carry on the business of banking under the provisions of the Financial Institutions Act 1995.

2. MATERIAL ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied for all the years presented, unless otherwise stated.

2.1 Basis of Preparation

The financial statements have been prepared under the historical cost convention, as modified by the revaluation of freehold property and investment securities measured at fair value. The financial statements have been prepared in accordance with IFRS Accounting Standards as issued by the International Accounting Standards Board ('IFRS') and with the requirements of the Companies Act and the Financial Institutions Act.

The preparation of the Company's financial statements requires management to make estimates and assumptions that affect the reported amounts of revenue, expenses, assets and liabilities, and the disclosure of contingent liabilities at the date of the financial statements. Such estimates and assumptions are based on historical experience and various other factors that are believed to be reasonable in the circumstances and constitute management's best judgement at the date of the financial statements. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in note 3.

Amendments that are effective for the current year

In the current year, the Company has applied a number of amendments to IFRS that are mandatorily effective for the accounting year ended 30 September 2025. Their adoption has not had any material impact on the disclosures or on the amounts reported in these financial statements.

IAS 7 and IFRS 7	Amendments - Supplier Finance Arrangements
IFRS 16	Amendments - Lease Liability in a Sale and Leaseback
IAS 1	Amendments - Classification of Liabilities with Covenants as Current or Non-Current

Forthcoming accounting standards, amendments and improvements

The following new standards and amendments to existing standards have been published and are effective in future financial years. The Company is currently evaluating the impact of these pronouncements on its financial reporting.

2. MATERIAL ACCOUNTING POLICIES (CONT'D)

2.1 Basis of Preparation (Cont'd)

Forthcoming accounting standards, amendments and improvements (Cont'd)

IFRS 18	Presentation and Disclosure of Financial Statements *(effective 1 October 2027)*
IFRS 19	Subsidiaries without Public Accountability: Disclosures *(effective 1 October 2027)*
IAS 21	Amendments - Lack of exchangeability *(effective 1 October 2025)*
IFRS 7 and IFRS 9	Amendments - Classification and Measurement of Financial Instruments *(effective 1 October 2026)*
	Amendments - Contracts referencing nature-dependent electricity *(effective 1 October 2026)*
IFRS 7, IFRS 9, IFRS 10 and IAS 7	Annual improvements to IFRS Accounting Standards - Volume 11 *(effective 1 October 2026)*

2.2 Foreign Currency Translation

Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the Company operates. The financial statements are presented in Guyana Dollars, which is the Company's functional currency.

Transactions and balances

Transactions involving foreign currencies are translated into the functional currency using exchange rates prevailing at the dates of the transactions. Foreign currency gains and losses resulting from the settlement of such transactions (arising on trading or otherwise) and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the statement of income.

2.3 Financial Assets and Financial Liabilities - Recognition and Derecognition

Recognition

The initial measurement of a financial asset or liability is at fair value plus transaction costs that are directly attributable to the issuance or purchase. Regular way purchases and sales of financial assets are accounted for at settlement date.

Derecognition

The Company, in some instances, renegotiates or otherwise modifies the contractual cash flows of loans to customers. When this happens, the Company assesses whether or not the new terms are substantially different to the original terms. If the terms are substantially different, the Company derecognises the original financial asset and recognises a new asset at fair value and recalculates a new effective interest rate for the asset.

In cases other than modification, a financial asset is derecognised when the contractual rights to the cash flows from the asset have expired; or when the Company transfers the contractual rights to receive the cash flows from the financial asset; or has assumed an obligation to pay those cash flows to an independent third party; or the Company has transferred substantially all the risks and rewards of ownership of that asset to an independent third-party.

2. MATERIAL ACCOUNTING POLICIES (CONT'D)

2.3 Financial Assets and Financial Liabilities - Recognition and Derecognition (Cont'd)

Derecognition (Cont'd)

Management determines whether substantially all the risks and rewards of ownership have been transferred by quantitatively comparing the variability in cash flows before and after the transfer. If the variability in cash flows remains significantly similar subsequent to the transfer, the Company has retained substantially all of the risks and rewards of ownership.

On derecognition of a financial asset, the difference between the carrying amount and the sum of consideration received and any cumulative gain or loss that had been recognised in other comprehensive income is recognised in the statement of income.

A financial liability is derecognised when the obligation under the liability is discharged, cancelled or expired. If an existing financial liability is replaced by another from the same counterparty on substantially different terms, or the terms of the existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability at fair value. The difference in the respective carrying amount of the existing liability and the new liability is recognised as a gain/loss in the statement of income.

If a modification of terms does not result in derecognition of the financial asset, the carrying amount of the financial asset is recalculated as the present value of the renegotiated or modified contractual cash flows, discounted at the original effective interest rate and a gain or loss is recognised. The financial asset continues to be subject to the same assessments for significant increase in credit risk relative to initial recognition and credit-impairment.

2.4 Financial Assets and Financial Liabilities - Classification and Measurement

Classification of financial assets and financial liabilities

On initial recognition, the Company classifies its financial assets and financial liabilities as measured at amortised cost, fair value through other comprehensive income (FVOCI) or fair value through profit or loss (FVPL). The classification and measurement requirements are described below.

Classification - Debt instruments

The classification of debt instruments depends on the business model used for managing the financial assets and whether the contractual cash flows represents solely payments of principal and interest.

The business models reflect how the Company manages the assets in order to generate cash flows. That is, whether the objective is solely to collect the contractual cash flows from the assets, or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If these financial assets have contractual cash flows which are inconsistent with a basic lending arrangement, they are classified as non-trading financial assets measured at FVPL. Factors considered by the Company in determining the business model for a group of assets include past experience on how the cash flows for these assets were collected, expectations on future sales, how the asset's performance is evaluated and reported to key management personnel, and how risks are assessed and managed.

2. MATERIAL ACCOUNTING POLICIES (CONT'D)

2.4 Financial Assets and Financial Liabilities - Classification and Measurement (Cont'd)

Measurement - Debt instruments

There are three measurement approaches for debt instruments depending on the classification of the financial assets.

- Amortised cost: Debt securities, loans and advances are held for collection of contractual cash flows, where those cash flows represent solely payments of principal and interest at specified dates. Interest income from these financial assets is included in the statement of income using the effective interest rate method. Any gain or loss arising on derecognition is recognised directly in profit or loss. The carrying amount of these financial assets is adjusted by an allowance for expected credit losses.

- FVOCI: Assets that are held for collection of contractual cash flows and for selling the financial assets, where the assets' cash flows represent solely payments of principal and interest, are measured at FVOCI. Changes in fair value are taken through OCI. The recognition of interest income and impairment gains or losses are recognised in the statement of income. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss. Interest income from these financial assets is included in the statement of income using the effective interest rate method. The carrying amount of these financial assets is adjusted by an allowance for expected credit losses.

- FVPL: Assets that do not meet the criteria for amortised cost or FVOCI are measured at FVPL. A gain or loss on a debt instrument that is measured at FVPL is recognised in the statement of income in the period in which it arises. Assets held for trading are classified as FVPL.

Classification and measurement - Equity instruments

Equity instruments are instruments that meet the definition of equity: that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets.

The Company measures all equity instruments at fair value. Dividends from such investments continue to be recognised in the statement of income when the Company's right to receive payments is established. Changes in the fair value of financial assets at FVPL are recognised in the statement of income.

Classification and measurement - Financial liabilities

Financial liabilities are classified as "measured at amortised cost".

Criteria for non-performing classification

In accordance with the Bank of Guyana's Revised Supervision Guideline 5 "Credit Exposure Review, Classification, Provisioning, and Other Related Requirements" (SG 5), the Company classifies loans and advances as 'non-performing' when the borrower is in default and has not made scheduled payments of principal or interest for 90 days or more; or an account where interest payments for 90 days or more has been capitalised, re-financed, or rolled-over into a new loan. In relation to overdraft, a period of 90 days or more has elapsed since the approved credit limit has been exceeded, or the overdraft has expired, or interest charges were due and unpaid, or the account has developed a hardcore which was not converted into a term loan.

2. MATERIAL ACCOUNTING POLICIES (CONT'D)

2.4 Financial Assets and Financial Liabilities - Classification and Measurement (Cont'd)

Criteria for non-performing classification (Cont'd)

(a) for a loan or an account with fixed repayment dates -
  (i) principal or interest is due and unpaid for three months or more; or
  (ii) interest charges for three months or more have been capitalised, refinanced, or rolled-over.

(b) for an overdraft or an account without fixed repayment dates -
  (i) approved limit has been exceeded for three months or more; or
  (ii) credit line has expired for three months or more; or
  (iii) interest charges for three months or more have not been covered by deposits; or
  (iv) the account has developed a hardcore which was not converted into a term loan after three months or more.

A credit exposure may only be returned to performing or accrual status when:
  (i) all arrears of principal and interest have been repaid in full; or
  (ii) a minimum of one year has elapsed since the restructuring of the credit exposure and timely repayments were made during that period in accordance with the revised terms.

2.5 Impairment of Financial Assets

Expected Credit Loss (ECL) Model

The Company assesses on a forward looking basis the expected credit losses (ECL) associated with its financial assets carried at amortised cost and FVOCI and with the exposures arising from loan commitments and guarantees. The Company recognises an ECL allowance at each reporting date. The net impairment charge in the income statement reflects the change in the allowance (excluding the impact of write-offs of amounts previously provided for).

The measurement of ECL reflects:

- An unbiased and probability-weighted amount determined from possible outcomes;
- The time value of money;
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The allowance is measured on expected credit losses resulting from default events that are possible within the next 12 months. In the event of a significant increase in credit risk since the origination or for credit-impaired assets, the allowance is measured from all possible default events over the expected life of the financial assets. ECL is calculated by multiplying the Probability of Default (PD), Loss Given Default (LGD) and Exposure at Default (EAD).

- PD is an estimate of the likelihood of default over the next 12 months or over the remaining lifetime of the obligation.

- LGD represents the Company's expectation of the extent of loss on a defaulted exposure. LGD varies by counterparty, type of claim and availability of collateral. It is expressed as a percentage loss per unit of exposure at the time of default.

2. MATERIAL ACCOUNTING POLICIES (CONT'D)

2.5 Impairment of Financial Assets (Cont'd)

Expected Credit Loss (ECL) Model (Cont'd)

- EAD is based on the amounts that the Company expects to be owed at the time of default, taking into account expected changes in the exposure after the reporting date, including repayments of principal and interest, expected drawdowns on commitments and accrued interest from missed payments.

The ECL is determined by projecting PD, LGD and EAD for future months and for each individual exposure. The multiplication of the three components results in the ECL for each future month, over the remaining expected life of the financial asset, and is discounted to the reported date based on the original effective rate. ECLs are calculated based on the present value of cash shortfalls determined as the difference between contractual cash flows and expected cash flows over the remaining expected life of the financial instrument.

The lifetime PD is developed by applying a maturity profile based on historical experience and current 12-month PD and relevant forward-looking expectations. The maturity profile looks at how defaults develop on a portfolio from the point of initial recognition throughout the lifetime of the loans.

The 12-month and lifetime LGDs are determined based on the factors which impact the recoveries post default including collateral type and projected collateral values, historical discounts to market/ book values due to forced sales, time to repossession and recovery costs observed.

The 12-month and lifetime EADs are determined based on expected repayment patterns and future drawdowns, where applicable.

Relevant forward-looking macroeconomic information is also considered in determining PDs, LGDs and EADs.

There are no differences in the estimation techniques or significant assumptions for the ECL calculations as at 30 September 2024 and 30 September 2025.

Three-stage method

The ECL impairment model uses a three-stage approach based on the extent of credit deterioration since origination.

Stage 1: 12 month ECL applies to all financial assets that have not experienced a significant increase in credit risk since origination and are not credit impaired. The ECL is computed using a 12-month PD that represents the probability of default occurring over the next 12 months.

Stage 2: When a financial asset experiences a significant increase in credit risk subsequent to origination but is not credit impaired, it is considered to be in Stage 2. This requires the computation of ECL based on lifetime PD that represents the probability of default occurring over the remaining estimated life of the financial asset.

Stage 3: Financial assets with objective evidence of impairment are included in this stage. Similar to Stage 2, the allowance for credit losses continue to capture the lifetime ECL.

2. MATERIAL ACCOUNTING POLICIES (CONT'D)

2.5 Impairment of Financial Assets (Cont'd)

Expected Credit Loss (ECL) Model (Cont'd)

Definition of default and credit-impaired financial assets

The Company defines a financial asset as in default, which is fully aligned with the definition of credit-impaired, when it meets either quantitative or qualitative criteria, as defined below.

Quantitative criteria - The Company ordinarily considers that default on a financial asset has occurred when the borrower is more than 90 days past due on contractual payments.

Qualitative criteria - The Company considers a financial instrument to be in default if there are clear indicators that the borrower is in significant financial difficulty and therefore unlikely to pay. Some indicators are: bankruptcy of the borrower; breach of financial covenants; borrower is in long-term forbearance.

The criteria for default have been applied to all financial instruments held by the Company and are consistent with the definition of default used for internal credit risk management purposes.

An instrument is considered to no longer be in default (i.e. to be 'cured') when it no longer meets any of the default criteria for a consecutive period of twelve months.

Assessment of significant increase in credit risk

The Company assesses whether there has been a significant increase in credit risk for exposures since initial recognition by comparing the risk of default occurring over the remaining expected life from the reporting date and the date of initial recognition. The assessment considers macroeconomic outlook, management judgement, and delinquency. In the current year, consideration was taken of the moratorium granted to qualified borrowers on loan payments (note 2.4). There is a rebuttable presumption that the credit risk of the financial instrument has increased since initial recognition when contractual payments are more than 30 days overdue. The Company has not chosen to rebut this assumption.

Forward-looking information

The estimation of expected credit losses for each stage and the assessment of significant increases in credit risk consider information about past events and current conditions as well as reasonable and supportable forecasts of future events and economic conditions. The estimation and application of forward-looking information requires significant judgement. In its ECL model, the Company incorporates forward-looking information on macroeconomic performance, specifically GDP growth.

Modification of contractual cash flows

If the terms of a financial asset are modified or an existing financial asset is replaced with a new one, an assessment is made to determine if the existing financial asset should be derecognised. Where a modification does not result in derecognition, the date of origination continues to be used to determine significant increase in credit risk. Where a modification results in derecognition, the new financial asset is recognised at its fair value on the modification date. The modification date is also the date of origination for this new asset.

2. MATERIAL ACCOUNTING POLICIES (CONT'D)

2.5 Impairment of Financial Assets (Cont'd)

Expected Credit Loss (ECL) Model (Cont'd)

Modification of contractual cash flows (Cont'd)

Modifications of the contractual terms of financial assets may result in derecognition of the original asset when the changes to the terms are considered substantial. The original financial asset is derecognised and the new asset is recognised at fair value; any difference arising is recognised in the statement of income.

If a modification of terms results in derecognition of the original financial asset and recognition of a new financial asset, the new financial asset will generally be recorded in Stage 1, unless it is determined to be credit-impaired at the time of the renegotiation. For the purposes of assessing for significant increases in credit risk, the date of initial recognition for the new financial asset is the date of the modification.

A modified financial asset will transfer out of Stage 3 if the conditions that led to it being identified as credit-impaired are no longer present and relate objectively to an event occurring after the original credit-impairment was recognised. A modified financial asset will transfer out of Stage 2 when it no longer satisfies the relative thresholds set to identify significant increases in credit risk, which are based on changes in its lifetime PD, days past due and other qualitative considerations. The financial asset continues to be monitored for significant increases in credit risk and credit-impairment.

Write-off policy

The Company writes off a credit-impaired financial asset (and the related ECL allowance), either partially or in full, when there is no realistic prospect of recovery. Where financial assets are secured, write-off is generally after receipt of any proceeds from the realisation of security. In circumstances where, based on the net realisable value of any collateral, there is no reasonable expectation of full recovery, write-off may occur earlier. The Company also recognises the statutory provisions contained in Bank of Guyana's Revised Supervision Guideline 5 relative to the write off of accounts classified as 'Loss'.

Guarantees and credit commitments

Financial guarantees are initially measured at fair value and subsequently measured at the higher of the loss allowance and the premium received on initial recognition. Loan commitments are measured as the amount of the loss allowance. For financial guarantees and loan commitments, the loss allowance is recognised as a provision.

Based on the historical experience and collateral pledged, the Company considers the risk of loss in the event of default to be low and consequently, the ECL to be immaterial.

Cash resources

Cash and balances with the Bank of Guyana and amounts due from other banks are within the scope of IFRS 9 impairment approach. However, based on the historical experience and the nature of the counterparties, the Company considers the risk of default to be low and consequently, the ECL to be immaterial.

2. MATERIAL ACCOUNTING POLICIES (CONT'D)

2.5 Impairment of Financial Assets (Cont'd)

Expected Credit Loss (ECL) Model (Cont'd)

Bank of Guyana Supervision Guideline 5

The Company is required to consider the need for impairment of financial assets in accordance with IFRS, as well as the provisioning requirements of the Bank of Guyana, as set out in SG 5. Where the impairment provision required under SG 5 is greater than that required under IFRS 9, the excess is dealt with as an appropriation of retained earnings to a general banking risk reserve.

2.6 Guarantees and Letters of Credit

The Company's potential liability under guarantees and letters of credit is reported as a contingent liability given that there are equal and offsetting claims against its customers in the event of a call on these commitments. Where there is doubt on the asset cover against these contingent liabilities, a provision for impairment is established.

2.7 Cash and Cash Equivalents

Cash and cash equivalents comprise cash-in-hand, balances held with other banks and the non-restricted balance with the Bank of Guyana, items in course of collection and investment securities with original maturity of less than three months.

2.8 Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and impairment losses, except for freehold property which is stated at revalued amount less accumulated depreciation. Freehold land is not depreciated. Other fixed assets are depreciated on a straight-line method at rates estimated to write off the assets over their expected useful economic lives.

The current rates of depreciation are as follows:

Freehold building	2%
Furniture, fixtures and equipment	10 - 33 1/3%
Motor vehicles	20%
Leasehold improvements	Over the period of the lease

Gains or losses on disposal of property and equipment are determined by reference to their carrying amount and are taken into account in determining operating profit. Repairs and renewals are charged to income when incurred.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date.

2.9 Intangible Asset (Computer Software)

The costs of acquiring, customising and installing computer software are capitalised and amortised over their estimated useful economic life of five years on a straight line basis. Costs associated with maintenance of computer software are expensed as incurred.

2. MATERIAL ACCOUNTING POLICIES (CONT'D)

2.10 Repossessed Assets

Repossessed assets are measured at the lower of carrying amount and fair value less costs to sell, and reported within "Other Assets".

2.11 Share Capital and Dividends

Ordinary shares with discretionary dividends are classified as equity.

Dividends are recognised as a deduction from shareholders' equity in the period in which they are approved by shareholders or, as in the case of interim dividends, when paid by the directors as authorised under the Company's by-laws.

2.12 Interest Income and Expense

Interest income and expense are recognised in the statement of income for all interest-bearing instruments on an accrual basis using the effective interest rate method.

The effective interest rate is the rate that exactly discounts the future cash payments or receipts through the expected life of the financial asset or financial liability to the gross carrying amount of a financial asset or to the amortised cost of a financial liability. The calculation does not consider expected credit losses and includes transaction costs, premiums or discounts and fees that are integral to the effective interest rate.

In accordance with Bank of Guyana Revised Supervision Guideline 5, interest income on 'non-performing' accounts is not accrued unless it is well-secured and full collection of arrears is expected within 3 months. Note 2.4 to these financial statements describes the basis for classifying accounts as 'non-performing'. Any uncollected interest is reversed from income at the time the facility is classified as 'non-performing'.

2.13 Fees and Commission Income

The recognition of fees and commission is determined by the purpose of the fee or commission and the basis of accounting for any associated financial instrument. Income earned on completion of a significant act is recognised when the act is completed. Income earned from the provision of services is recognised as revenue as the services are provided.

2.14 Taxation

The tax expense for the year comprises of current and deferred tax and is recognised in the statement of income or the other comprehensive income, as appropriate.

The current corporate tax charge is identified on the basis of the tax laws enacted at the reporting date. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

The Company provides for deferred tax using the liability method for all temporary differences arising between the tax bases of the assets and liabilities and their carrying values for financial reporting purposes. The currently enacted tax rate is used to determine deferred corporation tax.

2. MATERIAL ACCOUNTING POLICIES (CONT'D)

2.14 Taxation (Cont'd)

The principal temporary differences arise from depreciation on property and equipment, revaluations of certain assets and impairment provisions. Deferred tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

2.15 Retirement Benefit Plan

The Company offers a defined contribution pension arrangement to eligible employees. The Company's contributions are charged to the statement of income in the year to which they relate.

2.16 Segment Reporting

The Company is managed as a single unit engaged in commercial banking and its operations are located only in Guyana.

3. CRITICAL ACCOUNTING ESTIMATES AND JUDGEMENTS

The preparation of the Company's financial statements requires management to make judgements, estimates and assumptions in applying the accounting policies that affect the reported amounts of the assets, liabilities, income and expenses. Due to the inherent uncertainty in making estimates, actual results reported in future periods may be based upon amounts which differ from those estimates. The most significant judgements, assumptions and estimates are described in this note.

Measurement of the Expected Credit Loss Allowance

The measurement of the expected credit loss allowance for financial assets under IFRS 9 is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behaviour (e.g. the likelihood of customers defaulting and the resulting losses). The ECL allowance generated by the credit risk models are influenced by a number of factors, changes in which can result in different outcomes.

Some of the significant judgements and estimates that influence the outcome of the ECL allowances are:

- Choice of criteria for determining significant increase in credit risk;
- Choice of models and assumptions for the measurement of ECL;
- Recoverable values from collateral and time to recovery;
- Pattern of future cash flows;
- Basis for establishing forward-looking overlay adjustments; and
- Basis for establishing groups of similar financial assets for ECL purposes.

NOTES TO THE **FINANCIAL STATEMENTS**

15. RESERVES

Statutory Reserve

The Financial Institutions Act 1995 requires registered institutions to transfer annually a minimum of 15% of profit after taxation to a reserve until the balance on this statutory reserve is equal to the paid up capital of the institution.

General Banking Risk Reserve

This reserve represents statutory and other loss provisions that exceed the ECL allowance and that are appropriated from retained earnings.

Revaluation Reserve

The surplus arising on revaluation of freehold land and building, net of deferred tax, is transferred to this reserve.

21. TAXATION

	2025	2024
The provisional charge for taxation in the financial statements is made up as follows:		
Current tax	1,696,179	1,560,008
Deferred tax	14,593	(39,242)
Prior year adjustment	9,622	0
	1,720,394	1,520,766
Reconciliation of the Company's profit before taxation to the theoretical amount using the basic rate of tax:		
Profit before taxation	4,200,662	3,764,321
Corporation tax on profit at 40% (2024 - 40%)	1,680,265	1,505,728
Income not subject to tax	(107,153)	(105,730)
Expenses not deductible for tax purposes	1,069	0
Property and withholding taxes	141,629	125,805
Prior year adjustments	9,622	0
Other	(5,038)	(5,037)
	1,720,394	1,520,766

The effective tax rate was 41% (2024 - 40.4%).

22. EARNINGS PER SHARE

Profit attributable to shareholders	2,480,268	2,243,555
Weighted average number of ordinary shares (thousands)	59,491	59,491
Basic earnings per share	$41.69	$37.71

23. DIVIDENDS

Prior year final dividend paid $5.50 per share (2024 - $4.40)	327,202	261,762
Interim dividend paid $2.25 per share (2024 - $2.00)	133,855	118,983
	461,057	380,744

A final dividend in respect of 2025 of $6.25 per share (2024 - $5.50 per share), amounting to $371,821 (2024 - $327,202) is to be proposed at the annual general meeting on 27 January 2026.

26. RELATED PARTY TRANSACTIONS

(a) Loans, advances and other credit

A number of transactions were entered into with related parties during the course of the year. The related parties include major shareholders, key management personnel and other organisations controlled or significantly influenced by key management personnel. Loans and advances to employees of the Company are extended at preferential rates.

The total loans, advances and other credit commitments, as shown in the tables below, aggregate to 1.1 percent (2024 - 0.4 percent) of the total exposure to all customers. Additionally the total loans, advances and other credit commitments extended to the five related parties with the highest exposures as at the year end amount to $655,094 (2024 - $156,771) or 4 percent (2024 - 1 percent) of the capital base.

28. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT

Categories of Financial Instruments

Financial instruments carried at the reporting date include cash resources (cash, balances with Bank of Guyana and amounts due from other banks), investment securities, loans and advances, accrued interest and other receivables, customers' deposits, and other liabilities.

As at 30 September 2025, the measurement categories and carrying amounts of the financial assets and liabilities in accordance with IFRS 7 are as follows:

		2025	2024
	Measurement Category	Carrying Amount	Carrying Amount
Cash resources	Amortised cost	32,768,815	26,265,410
Investment securities	FVPL	212,278	222,850
	Amortised cost	45,403,971	35,697,230
Loans and advances	Amortised cost	63,870,100	60,097,141
Other financial assets	Amortised cost	901,926	1,035,175
Customer deposits	Amortised cost	127,728,806	110,001,242
Other financial liabilities	Amortised cost	3,312,288	2,593,587

Risks arising from Financial Instruments

Financial risks are inherent to the operations of the Company and management of these risks is central to the Company's continuing profitability. The Company is exposed to credit risk, liquidity risk, interest rate risk and foreign exchange risk. The objective of the Company's risk management policies and efforts is to minimise the effects of the risks inherent to its operations. Risk management is an ongoing process which involves the identification, assessment and monitoring of risks through the application of various approaches which are guided by the Company's policies.

These risks are continuously monitored at both the executive and directorate levels. Management engages in the daily monitoring of risks and provides the Board of Directors with monthly reports which analyse exposures to the various elements of risk. The main financial risks affecting the Company are discussed in the following parts to this note.

Thousands of Guyana Dollars

28. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (CONT'D)

Risks arising from Financial Instruments (Cont'd)

Credit Risk

The Company takes on exposure to credit risk, which is the risk that a counterparty will be unable to pay amounts in full when due, through its holding of cash resources, investment securities and loans and advances. It can also arise from guarantees and letters of credit provided by the Company or credit commitments given.

For financial assets recognised on the statement of financial position, the exposure to credit risk equals their carrying amounts. For guarantees and letters of credit, the maximum exposure to credit risk is the amount that the Company would have to pay if the guarantees and letters of credit were to be called upon. For credit commitments that are irrevocable over the life of the respective facilities, the maximum exposure to credit risk is the full amount of the committed facilities.

The following table presents the maximum exposure to credit risk arising from financial instruments, before taking account of any collateral held or other credit enhancements and after allowance for expected credit losses where appropriate.

	2025	2024
On statement of financial position:		
Cash and balances with Bank of Guyana	23,989,783	19,232,714

28. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (CONT'D)

Credit Risk (Cont'd)

Credit risk is managed to achieve a sustainable and superior risk-reward performance while maintaining exposures within acceptable risk parameters. The Company's policies and processes for managing credit risk are described below for each of its major financial assets.

Management of loans and advances, including off balance sheet exposures

The granting of credit through loans, advances, guarantees and letters of credit is one of the Company's major sources of income and is therefore one of its most significant risks. The Company therefore dedicates considerable resources towards controlling it effectively including a specialised Credit Department responsible for reviewing loan applications and monitoring granted loan facilities within the policies and guidelines established by the Board of Directors.

In executing its lending activities, the following measures are relied upon to mitigate the risk of default:

(a) Credit applications are initially reviewed by an officer of the Company's Credit Department during which details of the purpose of the facility, the financial standing of the applicant and the collateral available as security are obtained. The applicant's ability to repay the sums required are assessed based on information collected and an initial recommendation made by the Credit Department.

(b) The Company usually requires that collateral be lodged. Forms of acceptable collateral include cash, real estate, securities, machinery or equipment. The Company has established policies that guide its loan to value based on the type of collateral lodged. During the review of the loan application, an independent valuation of the collateral to be lodged is obtained, where possible.

(c) Any recommended loan applications are then subject to the approval from either senior management or the Board of Directors depending on the level of the amount applied for. There are internally pre-set limits which dictate the level of approval required.

(d) The Company's exposure to any single borrower is limited by the applicable provisions of the Financial Institutions Act. Additionally, the Company monitors exposure to industry segments to avoid over-exposure to any one sector.

(e) The Credit Department is required to carry out weekly reviews of any past due or impaired facilities. For all other facilities, quarterly reviews are carried out by the Credit Department.

(f) Independent valuations of collateral lodged against facilities are carried out at least every three years, where possible. Where securities are lodged as collateral, management monitors their market performance for indicators of impairment.

(g) Oversight from the Credit Committee of the Board of Directors.

(h) The Company's risk management practices provides information to assist with the identification of changes in credit risk of loans and advances; estimation of recoverable amounts from collateral and the likely exposure at default.

Thousands of Guyana Dollars

28. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (CONT'D)

Credit Risk (Cont'd)

Management of investment securities and amounts due from other banks

Managing the credit risks associated with investment securities and cash balances with other banks differs in an important respect from loans originated by the Company in that the counterparties involved are usually government bodies or established financial institutions. Within the Company, management of the portfolio of investment securities and cash balances with other banks is the responsibility of the Finance and Treasury Department.

The Board of Directors of the Company is required to approve all acquisitions of investment securities or the use of new financial institutions for the placement of cash resources. Thereafter re-investments into investment securities or use of banking facilities with financial institutions is at the discretion of management. The Company's acquisition of investment securities is guided by the 'single borrower' limits contained in the Financial Institutions Act.

Collateral is not usually collected on investment securities issued by government bodies or secured on government assets. Corporate investment securities are usually secured on the assets of the issuer. Valuations are not usually carried out on these assets given the corporate standing of the issuers. Collateral is not usually collected on amounts due from other banks as funds are only placed with institutions that are deemed to be financially sound.

Management continuously monitors the financial standing of issuers of investment securities and holders of cash balances. This practice provides necessary information to determine any changes in credit risk, thereby triggering an ECL allowance.

Credit risk concentration

A concentration of credit risk exists when a number of counterparties are engaged in similar activities and have similar economic characteristics that would cause their ability to meet contractual obligations to be similarly affected by changes in economic or other conditions.

The Company's five most significant credit concentrations (excluding government securities, cash and cash equivalents) expressed as a percentage of the Company's capital base is shown below.

	2025	2024
Counterparty 1	24.4%	27.2%
Counterparty 2	15.0%	17.2%
Counterparty 3	13.2%	15.3%
Counterparty 4	10.5%	11.2%
Counterparty 5	10.0%	10.0%

The analyses of credit risk concentrations presented in the following tables are based on the industry in which the counterparty is engaged and its geographic location.

28. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (CONT'D)

Credit Risk (Cont'd)

Financial assets subject to impairment

The Company monitors the quality of its financial assets through use of an internal grading system representing management's best estimate of the credit risk for the counterparty based on information presently available. The grades used are as follows:

Grade	Description
1	High grade - very strong likelihood of the asset being recovered.
2	Standard grade - good likelihood of the asset being recovered.
3	Special monitoring grade - concern over counterparty's ability to make payments when due.
4	Sub-standard grade - past due or individually impaired.

The following tables analyse the credit risk exposure of financial instruments for which an ECL allowance is recognised.

MORTGAGES

Commentary on movement in ECL allowance

The reasons for changes in the ECL allowance between 01 October 2024 and 30 September 2025 are:

Stage 1 ECL - an increase of $15,270 or 6%
- Growth in the portfolio which resulted in an increase in allowances during the year.

Stage 2 ECL - a decrease of $8,972 or 17%
- Transfers to stage 1 due to decrease in credit risk of certain customers.

Stage 3 ECL - a decrease of $408,625 or 52%:
- Attributed to increased number of loan facilities returning to performing; and
- Write-off of loss facilities and investment securities totalling $627,542

The reasons for changes in the ECL allowance between 01 October 2023 and 30 September 2024 are:

Stage 1 ECL - an increase of $55,844 or 27%
- Growth in the portfolio which resulted in an increase in allowances during the year.

Stage 2 ECL - an increase of $31,357 or 129%
- Transfers from stage 1 due to increase in credit risk of certain customers.

Stage 3 ECL - a decrease of $35,390 or 4%:
- Attributed to increased number of loan facilities returning to performing; and
- Write-off of loss facilities and investment securities totalling $549,008

28. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (CONT'D)

Credit Risk (Cont'd)

Financial instruments not subject to ECL allowance

There are investment securities with a carrying value of $212,278 (2024 - $222,850) which are not subject to ECL allowance as they are measured at fair value.

Collateral

The Company employs a range of policies and practices to mitigate credit risk. The most common of these is accepting collateral for funds advanced. The Company has internal policies on the acceptability of specific classes of collateral or credit risk mitigation.

The Company prepares a valuation of the collateral obtained as part of the loan origination process. This valuation is reviewed periodically. The principal collateral types for loans and advances are:

- Mortgages over properties
- Charges over premises, vehicles, equipment and inventory

The Company's policies in obtaining collateral have not significantly changed during the reporting period and there has been no significant change in the overall quality of the collateral held by the Company since the prior period.

The Company closely monitors collateral held for financial assets considered to be credit-impaired, as it becomes more likely that the Company will take possession of collateral to mitigate potential credit losses. The fair value of collateral held for financial assets that are credit-impaired amounted to $1,089,013 as at 30 September 2025 (2024 - $1,851,005).

The Company's policy is to advertise collateral to the public in an effort to recover outstanding sums.

During the year the Company obtained collateral from defaulting counterparties. The nature and carrying amounts of assets obtained, which are still held at the reporting date, are shown in the table below.

	2025	2024

28. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (CONT'D)

Credit Risk (Cont'd)

Modified facilities

The Company sometimes modifies the terms of loans and advances due to commercial renegotiations, or for distressed loans, with a view of maximising recovery. Renegotiations are usually considered upon request or where it is judged that a defaulting borrower will be better able to service outstanding debt under revised conditions.

The risk of default of such assets after modification is assessed at the reporting date and compared with the risk under the original terms at initial recognition, where the original asset was not derecognised. The Company may determine that the credit risk has significantly improved after restructuring, so that the assets are moved from Stage 3 to Stage 2 to Stage 1. This is only the case for assets which have performed in accordance with the new terms for 12 consecutive months or more. The gross carrying amount of such assets held as at 30 September 2025 was $2,101,987 (2024 - $965,106).

Written-off financial assets

During the financial year the Company wrote-off financial assets totalling $627,542 (2024 - $549,008).

28. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (CONT'D)

Funding and Liquidity Risk

This is the risk that the Company will be unable to meet its obligations when they fall due and to replace funds when they are withdrawn, with consequent failure to repay depositors and fulfil commitments to lend. The risk that it will be unable to meet its obligations is inherent in banking obligations and can be impacted by a range of institution specific and market-wide events.

Management of Funding and Liquidity Risk

Funding and liquidity risk is measured and managed in accordance with the policies and processes defined in the Board-approved asset-liability management framework which is part of the Company's Board-approved Risk Management Strategy. The Audit, Finance and Risk Management Committee of the Board of Directors is responsible for implementing the approved policies and processes.

The Company's liquidity management process is monitored by the Finance and Treasury function and includes the following measures:

The Company's liquidity management process is monitored by the Finance and Treasury function and includes the following measures:

(a) Day to day funding is managed by monitoring future cash flows to ensure that requirements can be met. Projections of cash flow profiles and expected maturities of financial instruments are relied upon to monitor future cash flows. Statutory liquidity ratios are regularly monitored to ensure liquidity is managed efficiently and prudently.

(b) Funds are borrowed on the inter-bank market to meet day-to-day shortfalls.

(c) A portfolio of highly marketable assets (including government securities) is maintained that can be sold or used as collateral for funding in the event of any unforeseen interruption to cash flow.

(d) Regular stress testing to assess the Company's ability to meet cash flow obligations under a range of market conditions and scenarios. These scenarios inform liquidity limits and strategic planning.

(e) The Company is required to retain a balance of cash at the Bank of Guyana to meet any unforeseen and significant shortfalls in liquidity. The amount to be deposited at the Bank of Guyana is dependent on the level of liabilities held in the form of customers' deposits.

Given the nature of the Company's operations, most of its financial liabilities are not demanded on the earliest date that repayment is due.

Foreign Exchange Risk

Foreign currency exposure arises from the Company's holding of foreign denominated assets and liabilities. The risk is that the carrying value of a financial instrument will fluctuate unfavourably because of changes in foreign exchange rates.

The Audit, Finance and Risk Management Committee of the Board of Directors is responsible for approving the Company's risk management policies and practices. Management is responsible for implementing those approved policies and practices.

Management of the Company reviews and manages the risk of unfavourable exchange rate movements by constant monitoring of market trends. The Company holds a large percentage of its foreign - denominated assets and liabilities in stable currencies and maintains net currency exposures within acceptable limits.

Thousands of Guyana Dollars

28. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (CONT'D)

Foreign Exchange Risk (Cont'd)

The aggregate amounts of assets and liabilities denominated in foreign currencies are shown in the tables below, along with the pre-tax impact of a reasonably possible change in the exchange rate (all changes in exchange rates reflect a strengthening against the Guyana Dollar).

As at 30 September 2025	Assets	Liabilities	Net Position	% change	Impact on profit increase/ (decrease)	Impact on OCI increase/ (decrease)

Eastern Caribbean Dollar	97,139	0	97,139	1.0%	971	0
Other	83,368	16,654	66,714	1.0%	667	0

Interest Rate Risk

The Company is exposed to certain risks associated with fluctuations in the prevailing levels of interest rates. Interest rate risk arises from movements in interest rates where the Company's assets and liabilities have varying repricing dates.

The Audit, Finance and Risk Management Committee of the Board of Directors is responsible for approving the Company's risk management policies and practices. Management is responsible for implementing those approved policies and practices.

Management manages this risk by a number of measures, including selection of assets which best match the maturity of liabilities and the offering of deposit opportunities that match the maturity profile of assets. Maturity gap profiles and interest rate sensitivity analysis are relied upon to manage this risk.

The Company holds a minimal amount of floating rate instruments and therefore has limited exposure to the cash flow risk that could arise.

The tables below set out the Company's exposure to interest rate risk by categorising the Company's assets and liabilities, by the earlier of contractual repricing or maturity dates.

Interest Rate Risk (Cont'd)

The table below summarises the average effective interest rates for monetary financial instruments:

	2025 %	2024 %
Assets		
Investment securities	1.2	1.2
Loans and advances	8.9	9.1
Liabilities		
Customers' deposits	0.3	0.4

Capital Management

The Company's objectives when managing capital are to safeguard the Company's ability to continue as a going concern in order to provide returns to the shareholders and benefits to other stakeholders, to maintain an optimal capital structure to reduce the cost of capital and maintain a prudent relationship between the capital base and the underlying risks of the business.

In pursuing these objectives, the Company has regard to capital requirements imposed by the Bank of Guyana. These requirements measure capital adequacy as a percentage of capital resources to risk weighted assets (Risk Asset Ratio). Risk weighted assets are a function of risk weights stipulated by the Bank of Guyana applied to the Company's assets. A capital adequacy ratio of at least 8% must be maintained at all times, with a minimum ratio of eligible Tier 1 capital to total risk-weighted assets of 6%.

The table below summarises the composition of regulatory capital and the ratios of the Company as at the date of the statement of financial position. The Company complied with the Bank of Guyana's capital requirements throughout the current year and prior year.

Regulatory Capital	**2025**	**2024**
Tier I Capital:		
Share capital	594,913	594,913
Statutory reserve	594,913	594,913
Retained earnings	16,255,481	14,277,080
Tier II Capital:		
Revaluation reserve	717,950	717,950
Prescribed deduction	(53,168)	(90,521)
	18,110,089	16,094,335

Regulatory ratios		
Tier I capital ratio	26.1%	24.8%
Total capital ratio	27.1%	25.8%

Fair Values

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

The sections that follow provide an analysis of the fair values of the Company's assets and liabilities based on the following hierarchy contained in IFRS 13:

Level 1	Quoted prices (unadjusted) in active markets for identical assets and liabilities.
Level 2	Inputs other than quoted prices included within level 1 that are observable for the asset, either directly (that is, as prices) or indirectly (that is, derived from prices).
Level 3	Inputs for the asset that are not based on observable market data (that is unobservable inputs).

Asset carried at fair value

The Company's FVPL investment security is carried at fair value based on a quoted price from an active market. It would therefore be classified as Level 1.

Assets and liabilities not carried at fair value

The table below shows the fair values of assets and liabilities which are not carried at fair value on the statement of financial position but for which disclosure of fair value is required.

	IFRS13 Level	2025 Carrying Amount	2025 Fair Value	2024 Carrying Amount	2024 Fair Value
Assets:					
Investment securities	Level 2	45,403,971	45,453,413	35,697,230	35,743,345
Loans and advances	Level 2	63,870,100	66,119,982	60,097,141	62,556,235

The fair values of investment securities and loans and receivables are based on net present values using discount rates reflective of market rates for similar assets.

Thousands of Guyana Dollars

28. FINANCIAL INSTRUMENTS AND FINANCIAL RISK MANAGEMENT (CONT'D)

Assets and liabilities not carried at fair value (cont'd)

The fair values of other financial assets and liabilities approximate to their carrying amounts given short term to maturity.

29. SEGMENTAL INFORMATION

Sources of Income

The various sources of income earned by the Company are shown in notes 16 and 17.

Geographical Information

The analysis of the Company's revenue between earnings in Guyana and earnings out of Guyana is shown in note 16 to these financial statements. There are no assets, other than financial instruments, located out of Guyana. The geographic analysis of the Company's financial instruments held at the year end is shown in note 28 to these financial statements.

Major Customers

There was no revenue deriving from transactions with a single customer that amounted to 10 percent or more of the Company's revenue.
